SUBJECT INDEX TO VOLUME 23

Antisperm antibody tests: traditional methods compared to ELISA, 139

β-endorphin and calcitonin in human semen, 77

Calcium uptake in human spermatozoa, 87
Chalamydial infection and male infertility: an epidemiological study, 243
Cigarette smoking and male reproduction, 45

Does wash-up, swim-up method of semen preparation play a role in sex selection?, 23

Human follicular fluid adverses hamster spermatozoa motility, 113
Hypoosmotic swelling test in prediction of male fertility, 131
Hypoprolactinemia as related to seminal quality and serum testosterone, 259

Immunocytochemistery of male reproductive organs, 169
Intrauterine insemination with washed sperm, 71

Laser radiation and motility patterns of human sperm, 229

Morphometric and volumetric comparisons of human spermatozoa, 201
Murine oocyte cryopreservation: comparison between fertilization success rates of metaphase I and II occytes, 27

Plasminogen activator activity of testicular cells of subfertile men and FSH and vitro, 235

Regulation of sperm motility, 1

Serological assessment of acyclovir treatment of herpes genitalis, 147
Semen characteristics and infertility in aging, 275
Semen parameters, interpretation and misinterpretation of, 213
Sexually transmitted diseases by donor semen, transmission of, 249
Sperm immobilization, test techniques for, 185
Sperm morphology before and after double wash-up preparation for in vitro fertilization, 125
Sperm penetration assay in fertility predictions, usefulness of, 207

Testicular DNA synthesis in vitro by hCG and hMG treatments, 39
Testicular FHS and hCG receptors in sertoli-cell-only syndrome, 119

Ultrastructure of human male urethra, 51
Ultrastructure of sertoli cells in cryptorchid goats, 61

Zinc binding to major human seminal coagulum proteins, 155
Zinc uptake on human seminal spermatozoa, effects on cell membranes, 97
Zona-free hamster egg sperm penetration assay as a predictor of in vitro fertilization, 267
Zona-free hamster egg penetration assay: indicator in IVF program, 33
